## STAKEHOLDER'S COLLABORATION TOWARD SUSTAINABILITY

Supply chain collaborative team meeting of stakeholders chaired by the National Coordinator NPSCMP, Pharm. Henrietta Bakura Onyeneke

The National Products Supply Chain Management Programme(NPSCMP), is a Sub Recipient to National Agency for the Control of Aids (NACA) under the Resilient and Sustainable Systems for Health (RSSH) grant. It has continually facilitated NPSCMP to fulfil its mandate of providing supply chain management and health system strengthening in the country. The country's desire as expressed by the NSCIP is to establish a government led sustainable system that is responsive, reliable, agile and cost effective that delivers services to the citizenry in line with Universal Health Coverage (UHC).

In Q1, Q2 and Q3 (January - September 2023), NPSCMP has worked relentlessly to ensure minimal interruption in the implementation of activities. the bi-quarterly progress report captures achievement with recommendations in the period under review.

### SPECIAL HIGHLIGHTS

 Resilient and Sustainable System for Health Project

 National Health Supply Chain Strategic and Implementation Plan (NHSCSP) 2021-2025

 Drug Management Agency Updates

 Capacity building at the Federal and States

Our goal

To effectively and efficiently coordinate all health products and supply chain management activities for optimal healthcare delivery services that prevent stockout, minimize wastages in the countryand the availability of quality, affordable and accessible commodities for patient health outcomes.

## A message from the National Coordinator

The Implementation of National Health Products Supply Chain Strategy and Implantation Plan (NHSCSP) 2021-2025 has been designed towards building a strong and Sustainable Health supply chain system in Nigeria to promote a government led system for ownership and leadership towards a resilient, agile and responsive health supply chain ecosystem. This also entails continuous development through research for evidence based decisions while maintaining an all inclusive stakeholder's engagement at all levels and development of supply chain standards for filling knowledge gaps.

Our collective goal is to achieve sustainable supply of health commodities and universal health coverage.

**Pharm. Henrietta Bakura-Onyeneke**  
National Coordinator,  
NPSCMP, FMOH

*Special thanks to NPSCMP team for their immense cooperation and the editorial team who have worked tirelessly on this 4th edition of our newsletter.*

## RESILIENT AND SUSTAINABLE SYSTEM FOR HEALTH PROJECT

The Resilient & Sustainable Systems for Health \*(RSSH) II Grant is a novel health system-strengthening Grant by The Global Fund, through the National Agency for the Control Of AIDS (NACA) as the Principal recipient and National Products Supply Chain Management Programme (NPSCMP) as the sub recipient responsible for PSM strengthening across all programs and also, ensuring to achieve universal health coverage, including financial risk protection, access to quality essential health care services, and access to safe, effective, quality, and affordable essential medicines and vaccines for all. These are the underpinning factors driving the National Products Supply Chain Management Programme (NPSCMP) to ensure the effective implementation of the National Health Supply Chain Strategic Plan 2021-2025. This strategic

the strategic information management at states and 4) optimize supply chain functions along the procurement and supply cycle value chain. While the first two pillars have direct bearing on the institutional maturity of government agencies. The last two are weighing heavily on their operational capacities to consistently deliver measurable standards and Supply Chain products.

In the period under review NPSCMP achievement include;

Improved coordination at the State level through provision of support for PSM-TWG meeting.

State level Stakeholders' collaborative meeting towards upgrading of 12 states Central Medical stores to Pharmagrade warehouses

Improved visibility of Health commodity stock status via introduction of National Stock

plan has four major pillars. They are: 1) to optimize the leadership, governance and coordination roles of NPSCMP; 2) to increase the state ownership of supply chain functions and their resource sustainability; NPSCMP Optimization- To optimize the leadership, governance and coordination role of NPSCMP; 3) to achieve integration of supply chain operations vis-a-vis the warehousing distribution, as well as

Status Reporting and NHLMIS

The grant made provision for state and LGA level iMSSV so as to ensure continuous improvement of Health facilities operations.

Enhanced human resource capacity for supply chain through development of standards, trainings and mentorship programs

## GF-RSSH GRANT II-SUPPORTED ACTIVITIES IN Q1, Q2 & Q3 2023 THROUGH NACA AS PRINCIPAL RECIPIENT

### INTERGRATED NATIONAL STOCK STATUS REVIEW (INSSR) WORKSHOP

The workshop is a quarterly activity consisting of all the supply chain stakeholders to review and validate data inputs and NSSR dashboard, as well as agree on critical decisions and next steps deemed necessary and the list of organizations

### NATIONAL PSM-TWG MEETING

One of the coordination activities of NPSCMP is to conduct quarterly PSM-TWG meetings. The last meeting was held on 4th October, 2023 at the Honourable Minister of Health's Conference Hall, 6th Floor, Federal Secretariat Complex, FMOH, Abuja.

The meeting aims to provide coordination among programmes and partners. A total of 47 participants representing the following organizations: NASCP, NPHCDA, NMEP, FMOH,

NPSCMP, FCMS Oshodi, Nutrition/FMOH, CCM, NAFDAC, NCDC, NACA, NACA-RSSH, LMCU/FCT, IHVN, USG, FHI360, WHO, CHAI, CRS, FP, MLSD, Nutrition International and CIPS attended the meeting.

signed off by the Permanent Secretary of HealthQ2 2023 iNSSR workshop was conducted between 4th – 7th September, 2023 at Jemmyland Hotel in Nasarawa state. Participants included representatives from NPSCMP, National Health Programs (NTBLCP, NASCP, NMEP, RH/FP and NPHCDA) and Partners (GHSC-PSM, CHAI, IHVN, UNICEF, FHI360).

### STAKEHOLDERS' POST iLMD REVIEW MEETING

On a bimonthly basis, the NPSCMP convenes post iLMD stakeholders review meeting with state LMCUs, service providers (Chemonics), national programs, and their supporting partners to evaluate service provider performance and review commodity flow for continuous performance improvement. The Review of the March/April 2023 cycle was held on 15th September 2023 at Jades Hotel, Abuja. The meeting took a physical and virtual approach and

involved stakeholders domiciled in Abuja, LMCU coordinators participated virtually.

services.

Participants included NPSCMP, NMEP, NASCP, NTBLCP, NPHCDA, State representatives from Kaduna, Nasarawa, Ekiti & Yobe, FHI360, and UNICEF.

### STAKEHOLDERS' WORKSHOP ON THE DEVELOPMENT OF A NATIONAL OVERSIGHT FRAMEWORK FOR RECONCILIATION TRIANGULATION AND ACCOUNTABILITY

A five-day stakeholder workshop was convened from 5<sup>th</sup> to 9<sup>th</sup> June 2023 at the Dover Hotel Lekki, Lagos and on 19th to 21st July, 2023 at Goshen Guest Inn, Nasarawa State. The purpose of the workshop was to Review the current system(s) for reconciliation and accountability of health commodities.

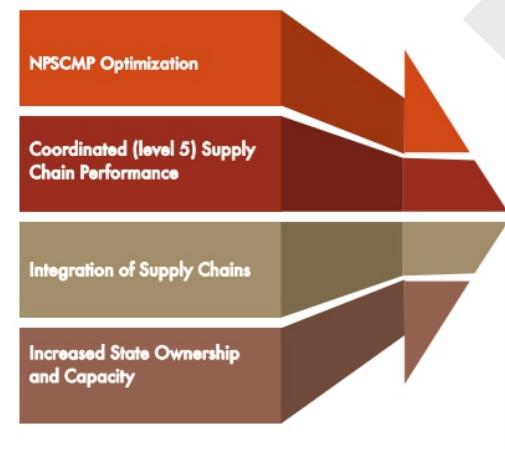

The stakeholders at the workshop included UNFPA, PROGRAMMES PICMA, USCDC, NCDC Office of DFDS NACA, NACA-RSSH, CHAI CDC state LMCU'S GIZ, ARC-ESM NASDSMA, FHI360, CHEMONICS and NPSCMP

### LEARNING AND ADVOCACY FOR STANDARD APPROACHES OF OPERATIONALIZING PUBLIC HEALTH SUPPLY CHAIN THIRD PARTY LOGISTICS (3PLS) SERVICE PROVIDERS

A workshop took place on the 7<sup>th</sup> and 8<sup>th</sup> of February 2023 at the Goshen Guest House, Nasarawa state, where states were engaged for learning and advocacy workshop for operationalizing public health supply chain third-party logistics (3PLs) and how to engage their

# NATIONAL HEALTH PRODUCTS SUPPLY CHAIN STRATEGY AND IMPLEMENTATION PLAN 2021-2025

## FOUR PILLARS OF NPSCMP

### OBJECTIVES

The strategy aims at optimizing the performance of NPSCMP. This agency is the change driver. A key output result of NPSCMP strengthening is the increased ownership, sponsorship and capacity at State levels, as well as performance improvement in all PSM areas

Procurement, storage, inventory management, distribution, and rational drug use will be built on the building blocks of service integration, State ownership and technical and human capacity for supply chain and NPSCMP leadership and support and results in UHC type reach for medicines across the country

This strategy aims at increasing efficiency in the use of supply chain resources and at effectiveness in product reach to service delivery points (last mile delivery). Integration is key driver of efficiency and effectiveness. Public health products will be managed and delivered along with essential medicines

This strategy aims at increasing sustainability of the supply chain. This will be brought about by increased State investment and resourcing of the supply chain. Outcomes aimed at are DRFs, warehouse infrastructure improvements and increased staffing and last mile delivery of all products

### STRATEGIES

- Leadership, Governance and Co-ordination
- Pharmaceutical System Capacity Building and Performance Management
- Advocacy and Communication
- Strategic Information Management and Innovation
- Sustainable and Competent Human Resources for Supply Chain

- Procurement
- Quality Assurance in Selection and Procurement Planning
- Inventory Management & Demand Management

- Warehousing and Last Mile Delivery
- Logistics Management Information System
- Reverse Logistics and Waste Disposal Management
- Supply Chain Risks Prevention and Management
- Supply Chain in Emergency Situations

- Finance and Resource Mobilizing
- Private Sector and Private Public Partnerships

## IMPLEMENTATION UPDATE

### INAUGURATION OF CT AND TT COMMITTEE OF SUPPLY CHAIN STAKEHOLDERS

- Supply chain Collaborative Team (CT):** This is a high-level team of funding stakeholders and thought leaders in the national supply chain who are focused on the alignment of investments and the governance of priority activities related to the maturity of Nigeria's health supply system at national and sub-national levels. The inaugural meeting was held on Thursday 17th February 2022 at the Minister of State for Health's Conference Room, Federal Ministry of Health, Federal Secretariat. A follow-up meeting was held on Monday, 26 th June, 2023. at NPSCMP Office, and in attendance are National Programs, Ghsc-psm, WHO, ARC-ESM, CIPS and UNICEF.

- Tactical Team (TT):** This is a mid-level team of Implementing Partners (IPs) with members representing their respective programs, donors and IPs and given the requisite authority to make operational decisions on behalf of their organizations on the implementation of priority activities related to the maturity of Nigeria's health supply system at national and sub-national levels. To this end, an inaugural meeting was held in the NPSCMP office on 8th March 2022. In attendance were NAFDAC, NASCP, UNFPA, RTSL, GHSC-PSM, WBFA, GIZ, ARC, NPHCDA, RH, NACA, NHCI project. Afterwards the next meeting was also held at NPSCMP office on the 16<sup>th</sup> March, 2023. Participants includes representatives of the following organisations: FMOH, NPSCMP, NPHCDA, WHO, UNICEF, ARC, JSI and CHAI, PICMA, WBFA, WHO/SEMO, RTSL, AD/PSM/NTBLCP.

### ADVOCACY TO AGENCIES PARASTERALS, ETC.

Advocacy visits were carried out to socialize the strategy plan and leverage on the visit to discuss issues of supply chain functions. At the Federal level the following organizations were visited: FCTA, NPHCDA, NASCP, UNICEF, FHI360, CRS, UNICEF and NTBLCP. Also relevant authorities and stakeholders were visited in the supported states.

### STATE ADOPTION OF THE NATIONAL HEALTH PRODUCTS SUPPLY CHAIN STRATEGY 2021-2025 AND ASSESSMENT OF STATE HEALTH SUPPLY SYSTEM

As part of support to the states by the FMoH in strengthening and maturing state health supply system towards the integration, NPSCMP

conducted assessment of the health supply system in seven states with funding support from TGF (Adamawa, Delta, Edo, Ekiti, Imo, Ondo &

Akwa Ibom) and six states + 1 with funding from USAID (Bauchi, Kebbi, Zamfara, Plateau. Sokoto, Ebonyi & FCT).

### MIDTERM REVIEW OF THE NATIONAL HEALTH PRODUCTS SUPPLY CHAIN MANAGEMENT STRATEGY

The purpose of the mid-term review is to enable NPSCMP to ascertain the strategy's implementation level in line with best practices, identify challenges and risks associated or

experienced during the implementation. The meeting was held at Stratton Hotel, Asokoro Abuja on 2nd to 3rd of March, 2023.

A total of 39 people participated representing the following organizations: NASCP, RH, NACA, NTBLCP, NPHCDA, NAFDAC, NCDC, Nutrition and Partners (UNFPA, Chemonics, GHSC\_PSM, PICMA, WHO, GIZ and MSH.

## LAUNCHING OF NATIONAL DRUG REVOLVING FUND SCHEME DOCUMENTS

NPSCMP in collaboration with key supply chain stakeholders has developed the National Drug Revolving Fund Operational Guideline and the Drug Revolving Fund system standard Operating procedure manual for states and health facilities in an effort to strengthen the state health supply system. The document will help the states to implement the Drug Revolving Fund scheme and improve the sustainability of the state health supply system towards achieving universal health coverage by making good quality and efficacious drugs available and affordable to the general populace. The document was launched on the 5th of September 2023 with support from USAID through GHSC-PSM. Present at the launching are Key Supply Chain stakeholders and some states representatives. The documents have been disseminated to all states for use in the facilities.

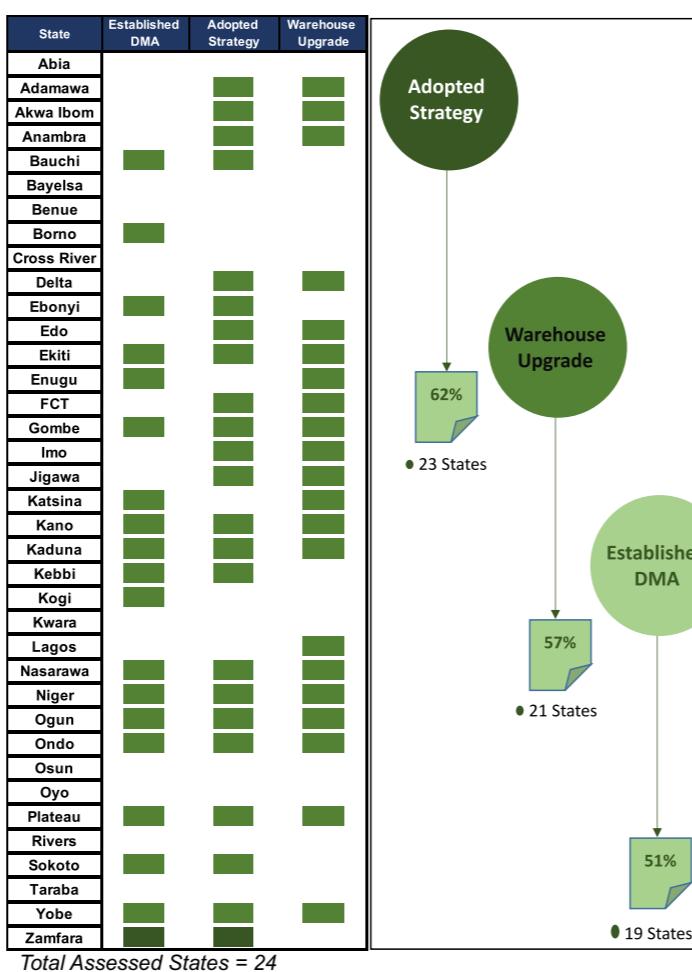

and determine the level of current performance of the State Health Supply System (SHSS) for performance improvement tracking. Another phase of the assessment was conducted in September for GF supported states (Jigawa, Ogun, Enugu, Delta, Adamawa, Anambra, Ekiti, Imo, Ondo, Akwa Ibom, Kastina and Edo).

## DMAASSESSMENT IN STATES

NPSCMP in collaboration with ARC-ESM assessed three states (Kano, Kaduna and Yobe states in August 2023).

The aim of the assessment was to assess the State Health Supply System using the National SHSS Maturity Assessment Tool, strengthen the implementation of the National Strategy 2021-2025

# WAREHOUSE UPGRADE

Global Fund has engaged UNICEF under the National Tuberculosis and Leprosy Control Programme (NTBLCP) as the Primary Recipient (PR) of the funding to carry out twenty-two (22) warehouse upgrades in twenty-one (21) states: Abuja, Adamawa, Akwa Ibom, Anambra, Delta, Edo, Ekiti, Enugu, Gombe, Imo, Jigawa, Kaduna, Kano, Katsina, Lagos CMS, Lagos FMC, Nasarawa, Niger, Ogun, Ondo, Plateau, and Yobe and

Federal Central Medical Store, Oshodi. A 15% incremental difference arose due to inflation and exchange rate changes compared to the previous quotation. Official letters have been sent to states to notify them and facilitate the release of counterpart funding for the project and the signing of the MOU. The project's commencement is imminent, leading to the distribution of these letters. The signing of the MOU is a prerequisite for project commencement, with the contractor ready for dispatch upon signing.

States are advised to coordinate with relevant bodies to expedite the collection process for the required building permit. An appeal was issued to states to accelerate the MOU signing process, emphasizing the importance of starting immediately, as any unused funds by December 31st could be forfeited.

States are required to secure building permits before construction can begin. The Project Management firm, Land Designs, will guide states to expedite this process. States must also evacuate the stores for the upgrade and secure building permits to grant access to the contractors. State will provide a 15% counterpart funding amount which will be appended to their MoUs. Where there is a variance between the 15% state counterpart fund from what was previously communicated in 2021, States are required to source the additional funds. However, construction can still commence as the State counterpart fund is necessary for warehouse aesthetics, not for structural upgrade.

## ONGOING ACTIVITIES

Following plans to upgrade the 21 state owned have commenced which are:

- 11 states' handover successfully conducted
- MOUs signed by all states except for FCT, Akwa Ibom, Katsina, Jigawa and Ogun states
- Some warehouses vacated for the upgrade
- Building permit secured except for FCT, Akwa Ibom, Katsina and Ogun states

# Collaboration with Supply Chain Stakeholders towards achieving sustainability

## LMD TRANSITION PLAN

The plan is made up of strategic areas for efficient distribution which includes: the imperative of change, new order (design and operation), Who does what?, Benefits (towards LMD excellence), benefits to other aspects of the health system (a.k.a the synergistic benefits), development of transition roadmap & milestone and increased end-to-end visibility through expansion of National Health Logistics Management Information System (NHL MIS).

In line with the above listed strategic areas, activities have been carried out such as the 5-Days Stakeholders Workshop for the review, sensitization and Implementation of Transition Plan for instituting and managing the national Integrated warehousing, LMIS, and optimised LMD. In attendance were 64 stakeholders which were representatives of DFDS, NPSCMP, ATMRHV, ARC, FHI360, CRS, GHSC-PSM, CCM, UNFPA, PICMA, with blend of DPSs, LMCU Coordinators and EDs/DMA from 12 states (Yobe, Nasarawa, Ondo, Kano, Bauchi, Kaduna, Delta, Imo, Lagos, Akwa Ibom, Niger, and Adamawa).

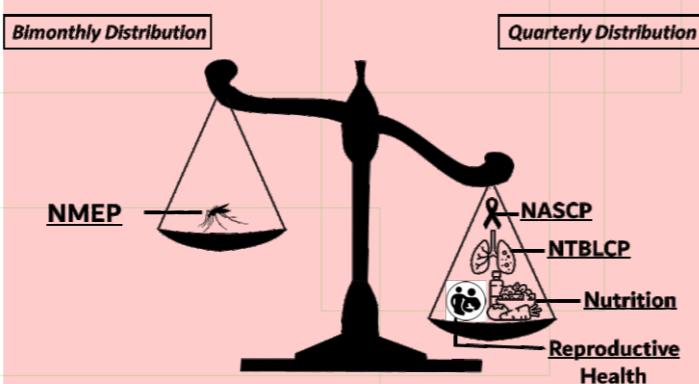

## HARMONIZATION OF REPORTING AND DISTRIBUTION TIMELINES FOR PUBLIC HEALTH PROGRAMMES (NMEP, NTBLCP, NASCP AND FAMILY PLANNING) AND NUTRITION DIVISION

Based on the directive from a meeting held by PSH and Department of FDS; requesting the formation that would coordinate the best option for reporting and distribution timelines for PH programmes in

terms of cost effectiveness, ownership and sustainability for the country, a committee was set up comprising of the PSM Heads of the Public health Programmes (NMEP, NTBLCP, NASCP and Family Planning) and Nutrition Division with NPSCMP as Secretariat.

The output of the committee showed that four (4) (NASCP, NTBLCP, FP/RH and Nutrition) out of the five programmes preferred the quarterly system while only NMEP preferred the bimonthly system. NMEP accepted the quarterly distribution with a clause that the implementation be done in a transitory manner.

## HR4SCM PROFESSIONALIZATION PROJECT

Human Resource for health supply chain (HR4HSC) is one of five main objective areas identified for state support under the National Health Product Supply Chain Strategy and Implementation Plan 2021- 2025; it is also part of the federal level support.

NPSCMP as the mandated body for the coordination of all health supply chain in Nigeria has inaugurated a 10-man team in collaboration with ARM-ESM for the People that Deliver (PTD) Project. For the project to start effectively, the 10-man team has to be inducted to pioneer the course of the project. The induction was held on the 24th of June 2022 at the NPSCMP office. The composition of the 10-man team were drawn from various units of NPSCMP.

The induction was held on the 24th of June 2022 at the NPSCMP office. The composition of the 10-man team were drawn from various units of NPSCMP.

Federal Ministry of Health (DHR FMOH), Department Of Health Planning Research and Statistics, Federal Ministry of Health (DHPRS FMOH), Partners (CIPS,

CHAI, WHO) and Pharmacy Council for Nigeria (PCN).

## REVIEW THE ZERO DRAFT OF THE NATIONAL SUPPLY CHAIN POLICY

On 23<sup>rd</sup> May 2023 in Stratton hotel asokoro Abuja, the NPSCMP, PtD, and ARC\_ESM conducted a Close-Out ceremony for the project implementation roadmap of the HR4SC professionalization project. This ceremony involved engaging stakeholders and seeking their endorsement and adoption of the roadmap with the presence of 27 participants.

The workshop was held at Fresh land Hotel, Nasarawa state on the 20th – 24th March, 2023. A total of 33 people participated, representing the following

organizations: PMGMAN, PSA, NPHCDA, FMOH, Admin/WHO, NMEP/FMOH, NCDC, NPSCMP, NACA, NTBLCP, CCM Grantor, PCN, NASCP, DRF CONSULTANT, ACRO/NAFDAC, STS-PSM-NACA, WHO. The aim of the workshop is to bring participants up to speed on the concept and justification for the review of the supply chain policy,

review and gather input into the Despite the achievements of the Policy, it is imperative to revisit the policy to identify areas where implementation have not impacted or have not been achieved or due to current development in the supply chain space the need to review in line with current and future realities. zero draft of the Nigeria supply chain policy. .

## MTAPS

NPSCMP is coordinating a workshop, MTaPS (Medicines, Technology, and Pharmaceutical Services Program), supported by USAID, aimed at creating an outsourcing service specification and a performance management framework for a 'pilot' State, specifically Kaduna State. The meeting took place at Goshen Guest Inn, Nasarawa State from 26th and 27th July 2023. A total of 22 participants were in attendance, representing the following organisations: NPSCMP, Public Health Programmes (NASCP, NTBLCP, NMEP and RH), Kaduna State (DMA, DPS, LMCU coordinator & SLO DRF), Partners (USAID MTaPS, PSA and ARC\_ESM).

### TRAINING OF STATES ON WAREHOUSE MANAGEMENT INFORMATION SYSTEM (WMIS) (mSUPPLY)

mSupply is one of the globally used Warehouse Management Information System (WMIS), and it has been approved to be deployed to the 21 warehouses + 6 TB zonal warehouse and the FCMS Oshodi Lagos. To this end, a six-day stakeholders National Training of Trainers (NToT) workshop was convened from 29<sup>th</sup> May to 3<sup>rd</sup> June 2023 at Enugu State (Dannic Hotels) with support from National Agency for the Control of AIDS (NACA). In attendance were representatives from NPSCMP, NTBLCP, NACA, FDS and NASCP.

The rollout started in August 2023 for 22 States to central medical stores and 6 TB zonal warehouses as follows:

-State CMS: FCMS Oshodi, Lagos State WH, Akwa-Ibom, Gombe, Delta, Enugu, Edo, Anambra, Kano, Katsina, Kaduna, Ondo, Ogun, Plateau, Ekiti, Imo, Adamawa, Jigawa, FCT, Nasarawa, Niger & Yobe

-TB Stores: Niger, Enugu, Rivers, Oyo, Kaduna and Bauchi

### FHI360 TRAINING FOR FACILITY STAFF ON LOGISTICS MANAGEMENT OF HIV/AIDS COMMODITIES (LMHC)

The training is on Logistics Management of HIV/AIDS Commodities (LMCH) and was done for 5days having 45 participants drawn from different GF supported states and facilities in Plateau, Taraba, Gombe, Abia, Enugu, Anambra, Oyo, Kwara, Imo, Ebonyi, Edo, Kano, Kaduna states held in The Dover Hotel, Ikeja, Lagos.

The training is to strengthen the capacity of facilities personnel at the service delivery points to be able to enter quality reports into the NHLmis platform, to use the SOP manual as a tool for keeping accurate records and transmitting timely reports to ensure a dependable supply of commodities.

### NHLmis TRAINING OF MINISTRY OF DEFENSE (MOD) SITE ADMINISTRATORS AND PHARMACY TECHNICIANS

The program was held from 10th to 14th July 2023 at Petrus Hotel, Abuja. Thirty-six (36) Participants that were trained and was comosed of Site Administrators, Pharmacist, Pharmacy Technicians. NPSCMP was invited to facilitate

### TRAINING OF STATES ON FUNCTIONALITIES OF NHLmis TOWARDS ESSENTIAL MEDICINE REPORTING

At first, NPSCMP with support from National Agency for the Control of AIDS (NACA) proposed a four (4) days' Training of Trainers (TOT) workshop to train NPSCMP staffs, National Programs Logistics focal persons, and other National key stakeholders on the effectiveness of the platform in the management of logistics processes for Essential Medicines. The activity took place in Monty Suits in Calabar Cross River State from the 10<sup>th</sup> to the 13<sup>th</sup> of January 2023. In attendance was: NTBLCP,

NASCP, NMEP, Family Planning department, NPHCDA and NPSCMP

Thereafter, a step-down training was carried out starting on the 26<sup>th</sup> of October 2022 with the target of training of about 26 states which includes; Akwa-Ibom, Abia, Kaduna, Katsina, Enugu, Anambra, Gombe, Adamawa, FCT, Niger, Rivers, Imo, Kano, Jigawa, Delta, Edo, Yobe, Nasarawa, Benue, Lagos, Ogun, Plateau, BoRno, Ondo, Kogi & Ekiti.

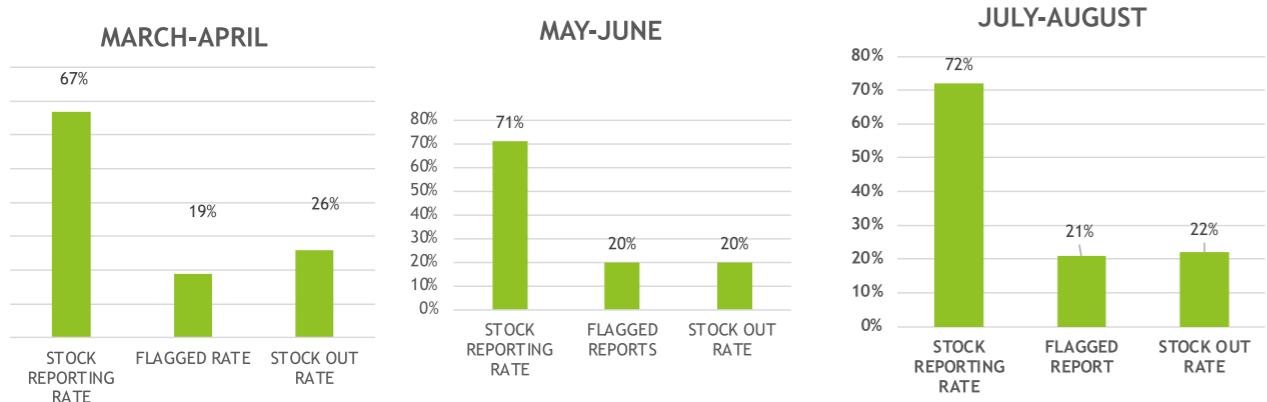

## NATIONAL STOCK REPORTING RATE AND STOCKOUT RATE ACROSS HEALTH PROGRAMS FROM NHLMIS

Nigeria Stock Status Situation Room is primarily a bimonthly follow-up activity coordinated by NPSCMP. It is a 15 working days activity and a channel through which the NPSCMP monitors and follows up on all 36 states and the FCT Logistics Management Coordinating Units (LMCUs), large facilities (secondary and tertiary), and data entry into the Nigeria Health Logistics Management Information System (NHLMIS).

### METHODOLGY

- The 36 states and the FCT are divided into the following geopolitical zones: North Central, North West, North East, South South, South East, and South West. 11 National participants are spread across these 6 zones to monitor and follow-up with the states' data entry, with 1 National Technical standby officer responsible for all technical resolutions across the country during this activity.
- During this period of activity, the following are the primary information sources at the state level: The Logistics Management Coordinating Units (LMCUs) Coordinators, Risk and Issue Visibility Officers (RIVs) and Performance and Improvement Coordination Officers. (PICs)

### GRAPHICAL REPRESENTATION OF 3 DIFFERENT REPORTING CYCLES, SHOWING THE STOCK REPORTING RATES, STOCK-OUT RATES AND FLAGGED REPORT ACROSS REPORTED PROGRAMS

The slide above depicts the aggregate performance of four different cycles (2023 March-April, May-June and July-August). The trend shows 67% for November-December 2021, 68% for January-February 2022, 67% for March-April 2022, and 71% for May-June 2022. The reporting rate and flagged report across the periods steady increases from March to August while the stockout rate remain unstable. This needs to be improved. In general, the flagged reports, stock outs, and stock reporting rate across the three (3) cycles require immediate attention because they do not meet the best performance range for their Key performance Indicators (KPIs).
